DETAILED ACTION

Examiner's Statement of Reason for Allowance

Claim 9 is allowable over the prior art of records.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claim 9 is allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

The reason for allowance for claim 9 is the inclusion of a concentrated fault management section connected to said clock fault detection section and said processor bus for supervising the normality of said processor bus and for continuously signaling, if a fault notification of the interruption of the supply of the clock signal is received from said clock fault detection section, a reset signal to said processor and said circuit section utilizing signal lines separate and distinct from said processor bus so that the data in a data link layer or an upper layer may not flow from said processor or circuit section in conjunction with the rest of the limitation set forth in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
